

## Quick Start: Office 365 Governance

You made the smart decision to move to Office 365. How do you ensure your organization uses all of the tools to their fullest capabilities?

Don't worry! Learning new technology can be pretty tough. Understanding and using it to fundamentally change the way your organization works? That's a real challenge. The good news is you're in a great position to take advantage of your existing investments.

The **Quick Start: Office 365 Governance** offers a framework for incremental and consistent advancement aligned with your business priorities. This day and a half workshop is designed specifically for organizations that understand what's possible with Office 365 but want to ensure proper organizational roll out and adoption. The engagement consists of the following three pillars:

### Understand

Understand the breadth of your current Office 365 investments. What tools do you have at your disposal.

### Unpack

Dive into what governance of your Office 365 environment could look like. Get introduced to the questions that need to be answered to build a governance strategy that will meet your organization's needs.

### Review

In the half days session we'll meet with you to finalize your personalized governance plan and roadmap report to help ensure ROI from your Office 365 investment.

## I'm ready to Quick Start Governance, but...

### What will we gain?
