248-412-8200

## GRAND RAPIDS

15 Ionia Ave. SW  
Suite 270  
Grand Rapids, MI 49503

616-776-1600

**A Microsoft 365 Security Assessment** from Red Level helps to accelerate your understanding of the vast set of security pillars and provides you a prioritized and actionable gap analysis and roadmap that aligns to the organization's needs.

### » Enterprise-Level Identity Protection

Strengthen your identity management and access controls to prevent and contain breaches before they threaten business information. Reveal cloud app usage to identify suspicious user/device behavior.

### » Control and Protect Information

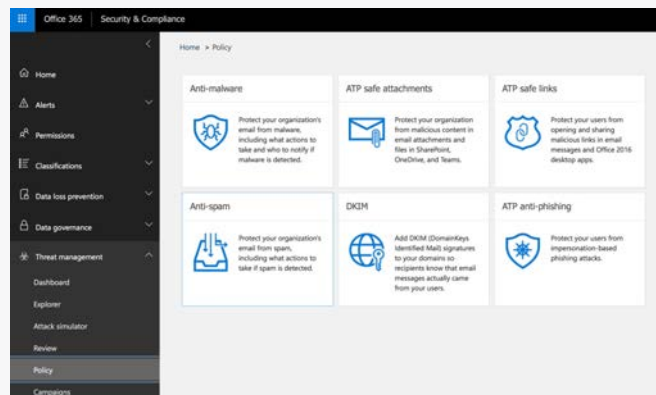

Assess and classify your organization's data. Implement and manage information policies and procedures.

### » Proactive Threat Detection and Prevention

Prevent attacks before they happen. Monitor and manage evolving threats. Respond and analyze using behavioral analytics and machine learning.

### » Regulatory Compliance

Get ahead of the increased demands of regulators and legal authorities. Simplify operational complexities. Limit your exposure to significant fines.

## What's included?

The comprehensive on-site 2- or 3-day assessment and workshop will focus on the following objectives:

- » Gain an understanding of client's business requirements and how they drive security objectives and requirements
- » Analyze security posture through the client's current implementation of Microsoft 365
  - Optional Add-On: Shadow IT Discovery
  - Optional Add-On: Windows 10 Security
  - Optional Add-On: Email Spear Phishing & Password Attack Simulations
- » Provide Microsoft 365 security readiness through guidance, recommendations, and best practices
- » Deliver a prioritized and actionable Microsoft 365 security gap analysis and roadmap based on client's security objectives and requirements

Upon completion, you will receive the following deliverables:

- » Microsoft 365 Security Gap Analysis
- » 30, 90, and 180 Day Actionable Roadmap
