

Quick Start: Cloud Immersion Experience

REDLEVELGROUP.COM

Empowering people to achieve more.

Office 365 offers many powerful tools but it can be overwhelming. The Cloud Immersion Experience provides a direction.

The Quick Start: Cloud Immersion Experience

The engagement consists of:

» Customized Direction

This session is customized to your specific business priorities; you'll start the session in a roundtable, discussing your biggest challenges, and then join a live experience.

» Hands-On Experience

Certified facilitators will guide you through a hands-on experience to see how the capabilities of Office 365 and Windows 10 can meet your needs in this collaborative fun environment.

» Receive Immediate Productivity Gains

- » Find information quickly and share information easily.
- » Maintain compliance, reduce phishing attacks, secure easy access.
- » Improve business processes, manage projects and tasks, and gain business insights.
- » Manage content effectively, present with confidence, and run engaging meetings.

I'm ready for the Cloud Immersion Experience but...

What will we gain?

- » Creating and sharing content and working together in real-time
- » Communicating with others, directly, through their groups and teams across the organization.
- » Coordinating meetings, projects, tasks and collective work products to get the job done.
- » Connecting with people across the organization to find content and expertise, share best practices, drive engagement, and harness the collective knowledge within your organization.

How will it work?

1. In-Person 3 to 4 hour workshop delivered by a Microsoft-certified facilitator
2. Includes CIE environment setup
3. 2 hours of follow up consulting

Where do I start?

Contact your Red Level Account Manager or reach out to us by phone - **248-412-8200** or by email - **info@redlevelgroup.com**
