Stay Connected.
with COVID ClearPass from Red Level

The COVID-19 pandemic has fundamentally changed how we live, work, and interact. Our new normal is anything but. Social distancing, location capacity restrictions, and health screenings are now everyday business challenges.

Government rules and CDC guidelines continue to evolve as new information becomes available. The ability to adapt has always been humanity's superpower. As businesses and institutions reopen, organizations need to change rapidly as well. Red Level is here to help.

We designed the COVID ClearPass app from the ground up with safety in mind. With ClearPass, your workforce has access to mission-critical tools right on their phone; screen for COVID symptoms, queue location access, and share key information, all from one central platform.

COVID ClearPass helps you take proper measures to prevent the spread of the virus while maintaining a socially distanced workplace. It's built from the latest State Executive Orders, Centers for Disease Control and Prevention guidelines, and the World Health Organization recommendations.

Protect your workforce and protect your business with COVID ClearPass from Red Level. Now let's get back to work!

ClearPass Features

Self Health Declaration Form

Screen your workforce for COVID-19 symptoms and warning signs right on their mobile device before they enter the workplace.

Capacity Restrictions

Manage the number of employees admitted to each of your locations throughout the day to comply with local regulations.

Pre-Registration & Waitlist

Pre-register and queue your team members and guests for visiting specific locations and automatically alert them when it's their time to enter.

Push Notifications

Don't let a flooded inbox cause you to miss a critical notification. Receive optional alerts directly to your phone's app notification center or email.

Flag & Alert

Automatically alert HR when a failed self-health declaration has been submitted or share company news and prevention tips with the whole team.

Reporting & Analytics

A full dashboard provides historical tracking and metrics on everything from app usage and activity to the names admitted and totals at each location.

Works on Any Device

The web-based app works anywhere on any device. Team members can use it from the home office or on the go on via mobile phone.

Fully Customizable*

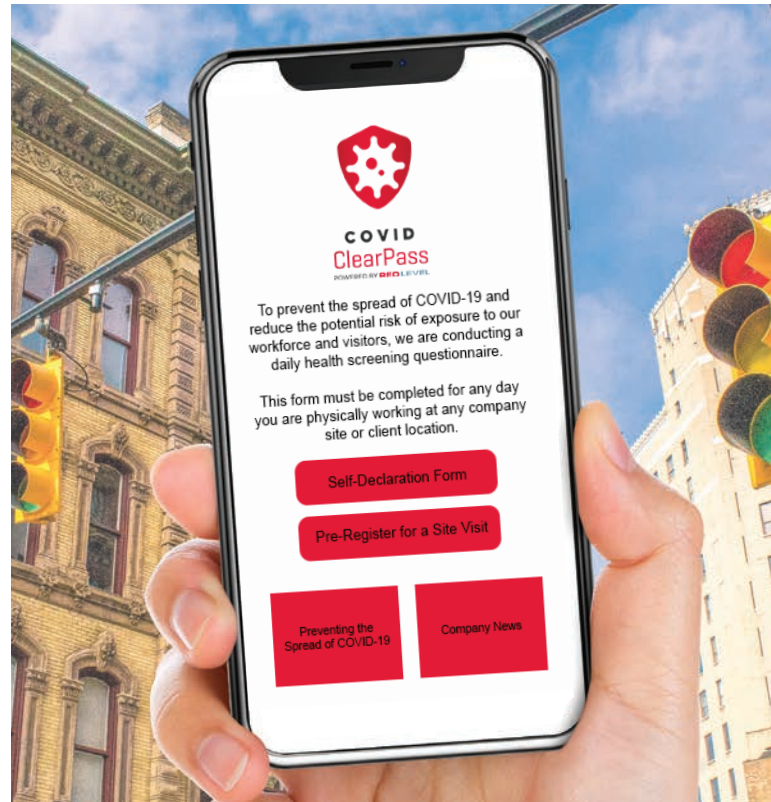

White label or customize ClearPass to best fit your organization's needs - from simple rebranding to developing additional features and utilities.

Contact Tracing [Coming Soon]

Prevent the spread of COVID-19 by identifying team members who have been in the same site with someone who is later diagnosed with the virus.

*Customization charged at a regular hourly rate

About Red Level

From headache-free managed IT services to process automation to custom app dev, Red Level helps Michigan-based businesses of all sizes transform technology into their competitive advantage.

With 40+ technologists at our tech centers in Novi and Grand Rapids, we unleash your workforce with enterprise-grade helpdesk services and productivity tools.

Technology should propel your business forward, not hold you back. Let's talk about how Red Level can help your organization level up. It all starts with an open, honest conversation with a partner you can trust.
